

Product Catalog

Your best choice of pest control.

Profile

DUONG, the professional manufacturer of PROCATCH Mouse Glue Traps, was founded in Taiwan since 1990. Our company mainly produces three types of products: Mouse Glue Trap, Roach Glue Trap, and Fly Trap Paper.

The production and commercialization are in charge by Mr. A. T. Lee, who is the original founder. DUONG is making all efforts to export and sale Mouse Glue Trap and relative products to the global market. We dedicate ourselves to following the strict quality control procedure and continuing to research and study all kinds of Mouse Glue Trap, and the complete acceptance of orders, the production, and the business service.

Nowadays, we are quite famous in the pest industry. DUONG is in the leading position of the Mouse Glue Trap's market and numbers of large-scale shopping malls have been placing orders and asking DUONG to produce OEM (Original Equipment Manufacturing) products for them. As for "custom-made" service, we accept requests from customers, such as product design form, different formulas for the adhesive, and transportation simulation testing.

We always believe in the spirit of "Quality & Service are our first priority" to manage our business. It is our responsibility to improve the living environment and to enhance people's living standard. PROCATCH even makes more effort to research and to develop new products, hoping that we can offer better products for the people all around the world and to let all the people be liberated from the menace of the "TOXIC" sources, because we all know that "we only have one earth" .

History

- ▲1990 Duong Industrial Co., Ltd was founded.
- ▲2003 Officially certified by ISO9001:2000.

Net Weight: 10kgs

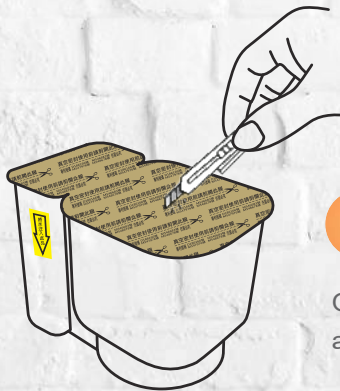

Gross Weight: 11kgs

Barcode: 4712833300108

Insects Fumigator

How to use :

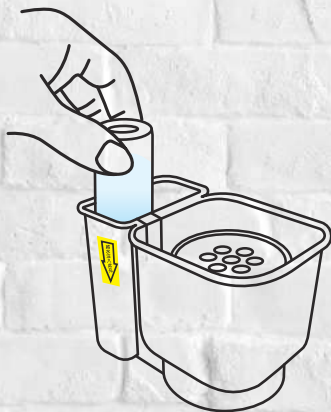

1

Open the box
and tear off the tin foil.

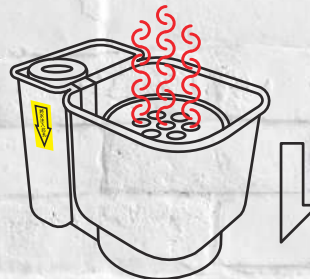

2

Take out the included
water can and open the lid.

3

Open the lid and pour
the water into the
container by following
the indicated arrow and
the water will flow to the
base completely.

4

Fumigation will begin in
1~3 minutes when the
water has flowed to the
bottom of the can.

In the meantime, before
leaving the house, please
tightly cover fish tanks, and
take your pets out with you
for at least 2 hours.

Effective to kill-termites, silver fishes, booklice, mosquitos,
fleas, dust mites, flies, spiders, ants & cockroaches.
